

Response 09 Parent

John Parent PO Box 753 Darrington, WA 98241

John came in to the front office yesterday, Monday April 18th, 2016 and asked me to relay his oral comment regarding the 2016 Project Scoping letter.

He finds it disturbing that the USFS refers to “we and our partners” when this is not really inclusive of the local community. “All of these issues are civil rights issues”. He likes all the projects just wishes that the agency would actually listen to the community members. “We have a right to prior consultation”.

He resides north of Darrington at sec 5 R 10E T 33
